

SOYALetegra

Integrated Access Control and Security System

SoyalEtegra(SACS) is an advance client / server access control software that is designed exclusively for Soyal's card and fingerprint access system. It extends SOYAL functionality to the next level with integrated CCTV surveillance and time attendance functions. SoyalEtegra is fully loaded with powerful features into a single platform to achieve centralized security, surveillance and attendance management for small to big business operations.

ONE FOR ALL HARWARE, ALL IN ONE SOFTWARE

Basic
Affordable low budget system. 1024 users, 1200 event memory, 11 time zone.

AR721H & AR721U

Standard
LCD screen show clock and easy to program. 1024 users, 1200 event memory, 11 time zone.

AR727H & AR737U

Performance
LCD screen show user name and display customizable message. 15K users, 11K event memory, 63 time zone, 255 door group, Support expiry date, all parameter set from software.

AR829E & AR721U

Fingerprint
LCD screen show user name and display customizable message. 4500 fingerprint, 10K card users, 11K event memory, 63 time zone, 255 door group. Support expiry date, all parameter set from software.

AR821EF Optical or Capacitive

Multidoor
Global anti-passback and manage multiple doors. 15K card users, 11K event memory, 11 time zone, 63 door group. Support expiry date, all parameter set from software.

AR716E & AR727i network module

Signal Converter

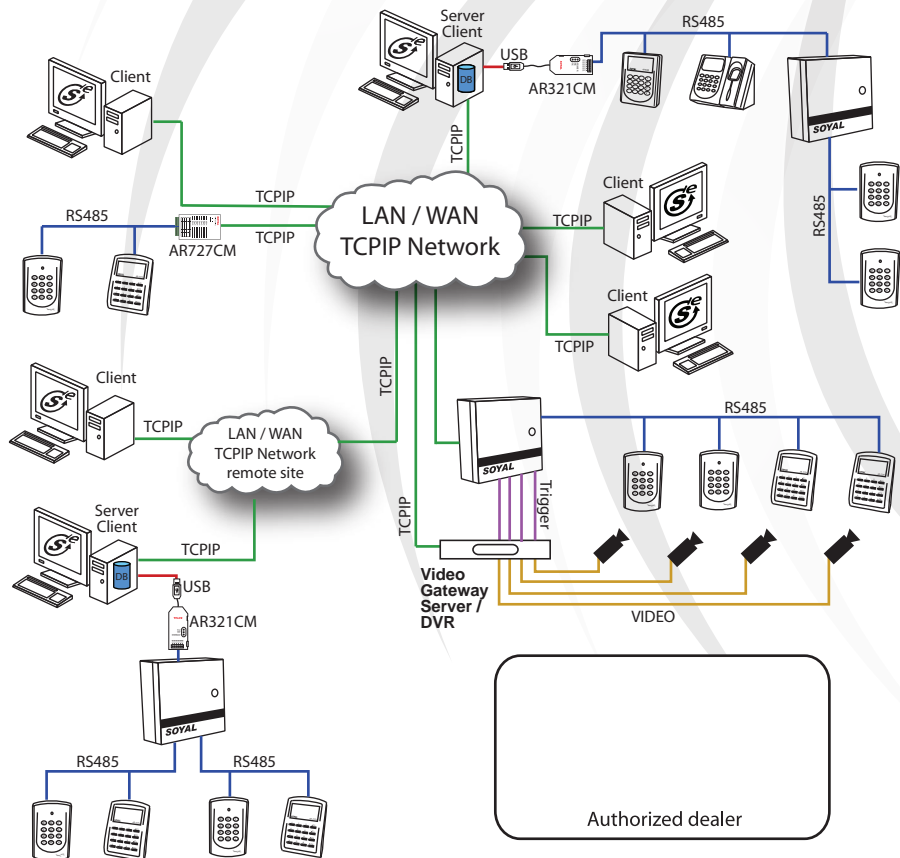

AR321CM AR727CM

MVR04 4 ch Video Gateway Server

MVR08Z and MVR16Z 8 and 16 Ch DVR

	Lite	Professional Basic	Professional Advance
Model	SELT	SEPBB	SEPA
System configuration			
Hardware Manager	Single site	Multi sites	Multi sites
Client / server support	Standalone only	yes	yes
Multi branch	no	no	yes
Function permission	no	yes	yes
User management			
Multi card per user	no	yes	yes
Assign FP reader per user	no	yes	yes
Access Control			
Permission setting	Basic	Advanced with door vs time zone. Allow different access method for different door at different time within same day	
Time Attendance			
Overnight next day shift	no	yes	yes
Multiple break	only 1 break	max 4 breaks	max 4 breaks
Calculation	Basic FILO within each shift interval	Advance with F-Key duty based, able to see clocking details, shift assigned, auto-generate clocking.	
Monitoring			
Current event log	yes	yes	yes
Alarm event log	no	yes	yes
Anti-passback map	no	yes	yes
Door commander	no	yes	yes
In/Out monitoring	no	yes	yes
User tracking	no	yes	yes
CCTV	no	Max 8 ch video	Unlimited video

Architecture diagram

Recommended PC requirement :
Intel I5 core CPU, 300 GB HDD, 4 GB RAM, XP Pro, Vista (32 bit) Win 7 (32 bit)
